FREQUENTLY ASKED QUESTIONS

WHAT ARE THE BENEFITS OF TAKING GREENS?

Greens contains an abundance of free-radical-fighting nutrients, and it helps restore your body to its appropriate pH balance. An unbalanced body can suffer severe and prolonged damage due to high acidity, making an acidic body more prone to sickness. With restored alkalinity, your body is better equipped to fight off sickness.

Raw fruits and vegetables are the best foods for combating acidity and restoring alkalinity in the body. Greens gives you the nutrients of 8+ servings of fruits and vegetables with every serving! Add a daily dose of the essential vitamins and minerals within It's Vital™ to the pH-balancing benefits of Greens for a regimen that will help you achieve optimum overall health.

THE LABEL SAYS TO AVOID TAKING GREENS 3-4 HOURS BEFORE BEDTIME. WHY IS THAT?

All of the high-quality vitamins, minerals, phyto-nutrients, and enzymes within Greens are invigorating to the body. Many people feel quite energized after taking Greens and have a difficult time settling down to sleep. For that reason, we recommend that you not take Greens 3-4 hours prior to bedtime.

I LOST MY GREENS SCOOP; WHAT IS ONE GREENS SCOOP EQUIVALENT TO?

One scoop is equivalent to 1/2 teaspoon.

CAN I TAKE GREENS IF I AM PREGNANT?

We suggest that you consult your physician prior to using any of our products if you are pregnant or nursing.

DOES GREENS CONTAIN GLUTEN?

Yes, it does contain a small amount of gluten.
